

## **Tina Alicea** **CEO Safe Harbor Medical**

Chief Executive Officer, Tina Alicea graduated from Marquette University in 1988 with a Bachelor of Science in Political Science, and Keller Graduate School of Management in 1995 with an MBA. Upon graduation, while in graduate school started and grew an international defense contracting company. In 2001 Tina sold the company to an Australian/US consortium and began consulting Fortune 500 companies. In 2009 Tina was approached by the Nevada governor's office to consult medical providers in navigating their businesses through the economic downturn and thwart providers from leaving Nevada. Her success introduced her to the FQHC model. Tina's first FQHC development was FirstMed, closely followed by founding First Person Care Clinic, and being a part of Silver State Health leadership team, as well as working with the board of HOPE Christian in their development to become an FQHC. Tina was recruited by Centene to launch SilverSummit HealthPlan in 2017 as COO managing more than 100 people in several departments. After launching SSHP Tina chose to go back to working with non-profit clinics. Currently Tina manages 12 employees ranging from highly skilled professionals to lower-level staff members. These diversified opportunities have allowed her to gain real world experience in various sectors of healthcare operations, marketing, and system management. Tina is committed to excelling the mission and vision of Safe Harbor Medical as she is originally from the community, a fact that few Health Center CEOs can say in the Las Vegas market.
